Re: ACC Code of Practice Engine Test Registration Fees

The American Chemistry Council (ACC) Petroleum Additives Panel has approved a decrease in the engine test registration fees from \$150 (one hundred and fifty dollars) to \$100 (one hundred dollars) per scheduled/registered engine test. This registration fee will become effective on January 1, 2024 at 12:01 a.m. Eastern.

The ACC Product Approval Protocol Task Group (PAPTG) continually reviews the ACC engine test registration fees to ensure that they are appropriate and adjusts them as required to maintain a self-sustaining system.
